

ABINASH A

Full Stack Developer | Flutter & Python Developer | AI/RAG Systems
+91 8667389978 | ayyappaanabinash74@gmail.com | LinkedIn | GitHub | Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Software Engineering focused Information Technology student with internship experience in Flutter development and hands-on experience building AI-powered document intelligence platforms, full-stack web applications, and cloud-deployed systems using React.js, FastAPI, PostgreSQL, and modern development practices.

TECHNICAL SKILLS

Languages: Python, Java, Dart, SQL, HTML, CSS, JavaScript
Framework: React.js, Flutter, Flask, Laravel
AI&ML: RAG, LangChain, Semantic Search, Vector Embeddings, Generative AI
Databases: PostgreSQL, MySQL, Firebase, Supabase, FAISS, ChromaDB
Tools: Git, GitHub, Postman, Jira, VS Code, Vercel, Render

PROFESSIONAL EXPERIENCE

Junior Mobile Developer Intern Sep 2025 – Jan 2026
Capnis Infotech Pvt Ltd, Chennai

- Developed a Flutter-based e-commerce application with **JWT authentication** and secure credential storage, strengthening application security and user authentication workflows.
- Integrated **Laravel REST APIs** with the mobile application, enabling scalable backend communication and seamless data exchange across system components.
- Implemented real-time inventory monitoring and automated stock alerts, reducing manual inventory tracking efforts and improving operational efficiency.
- Collaborated using **Git-based version control** and agile practices to support structured software delivery and team productivity.

PROJECTS

AI-Powered Document Intelligence & Semantic Search System using RAG Jan 2026 – May 2026
FastAPI, React.js, LangChain, FAISS, SentenceTransformers **Live Demo** | **Source Code**

- Built an AI-powered Document Intelligence Platform using **RAG**, **Semantic Search**, and **FAISS** vector indexing for context-aware question answering over documents.
- Designed and deployed a full-stack architecture using **React.js**, **FastAPI**, **LangChain**, **Vercel**, and **Render**, improving retrieval relevance over keyword-based search.

Vizicheck – Visitor Pass Management System May 2026 – Present
Flutter, FastAPI, PostgreSQL, REST APIs

- Developing a Visitor Pass Management System to streamline visitor registration, approval workflows, and entry tracking, reducing manual processing efforts and improving operational efficiency.
- Built secure role-based access control, REST API integrations, and centralized visitor status monitoring to support scalable and secure visitor management operations.

Budget Buddy – Personal Finance Tracker Jun 2025 – Oct 2025
Python, Flask, JavaScript, Bootstrap **Live Demo** | **Source Code**

- Built a personal finance management application with expense tracking, spending analytics, and category-based dashboards to help users manage financial activity.
- Implemented budget alerts, transaction export functionality, and interactive visualizations, improving financial awareness and user engagement.

EDUCATION

B.Tech – Information Technology 2023 – 2027
Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College CGPA: 7.48/10

Higher Secondary (Class XII) 2022 – 2023
Jaivins Academy CBSE Senior Secondary School

Secondary (Class X) 2020 – 2021
Jaivins Academy CBSE Senior Secondary School

CERTIFICATIONS

- Career Essentials in Generative AI – Microsoft & LinkedIn Learning, 2024
- Operating Systems Basics – Cisco Networking Academy, 2024
- Python Programming – IIT Madras Digital Skills Academy & GUVI, 2021
