

ABINASH A

Software Developer | Full Stack Developer | Junior Mobile Developer

+91 8667389978 | ayyappaanabinash74@gmail.com | LinkedIn | GitHub | Portfolio | Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Software Engineering focused Information Technology student with internship experience in Flutter development and hands-on experience building AI-powered document intelligence platforms, full-stack web applications, and cloud-deployed systems using React.js, FastAPI, PostgreSQL, and modern development practices.

TECHNICAL SKILLS

Languages: Python, Java, Dart, SQL, HTML, CSS, JavaScript

Framework: React.js, Flutter, Flask, Laravel

AI&ML: RAG, LangChain, Semantic Search, Vector Embeddings, Generative AI

Databases: PostgreSQL, MySQL, Firebase, Supabase, FAISS, ChromaDB

Tools: Git, GitHub, Postman, Jira, VS Code, Vercel, Render

PROFESSIONAL EXPERIENCE

Junior Mobile Developer Intern

Sep 2025 – Jan 2026

Capnis Infotech Pvt Ltd, Chennai

- Built a production Flutter billing application with **12 modules and 40+ screens** using Clean Architecture **MVVM** + Repository Pattern and **GetX** state management, delivering end-to-end billing, inventory, payment, and reporting workflows.
- Integrated **Laravel REST APIs** using Dio HTTP client with **JWT** authentication, token refresh mechanisms, and secure credential storage via Hive, ensuring robust and secure backend communication.
- Implemented real-time inventory monitoring with **automated low-stock alerts** and an offline-first local caching strategy using Hive, reducing dependency on network availability.
- Delivered **PDF bill generation**, print functionality, and CSV/PDF report exports across Paddy & Rice billing workflows, improving operational documentation efficiency.

PROJECTS

AI-Powered Document Intelligence & Semantic Search System using RAG

Jan 2026 – May 2026

FastAPI, React.js, LangChain, FAISS, SentenceTransformers **Live Demo** | **Source Code**

- Built an AI-powered Document Intelligence platform using **React.js**, **FastAPI**, **LangChain**, **FAISS**, and **SentenceTransformers**, enabling semantic search and context-aware question answering across unstructured documents.
- Designed and implemented a modular AI pipeline covering document extraction, chunking, embedding generation, **vector indexing**, semantic retrieval, and **Retrieval-Augmented Generation (RAG)**.
- Developed a production-style full-stack architecture with **15+ reusable UI components**, multiple AI services, and REST APIs supporting document upload, classification, analytics, and conversational querying.

Vizicheck – Visitor Pass Management System

May 2026 – Present

Flutter, FastAPI, MySQL, REST APIs

- Developing a production-oriented Smart Visitor Management System with **55 REST APIs**, **12 database entities**, and **34+ user interfaces** across Admin, Tenant, Visitor, and Security portals.
- Implemented **QR-based access workflows**, role-based access control, and centralized visitor status monitoring using Flutter, FastAPI, React.js, and MySQL to support scalable multi-portal operations.

Budget Buddy – Personal Finance Tracker

Jun 2025 – Oct 2025

Python, Flask, JavaScript, Bootstrap **Live Demo** | **Source Code**

- Built a personal finance management application with expense tracking, spending analytics, and category-based dashboards to help users manage financial activity.
- Implemented budget alerts, transaction export functionality, and interactive visualizations, improving financial awareness and user engagement.

EDUCATION

B.Tech – Information Technology

2023 – 2027

Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College

CGPA: 7.48/10

Higher Secondary (Class XII)

2022 – 2023

Jaivins Academy CBSE Senior Secondary School

Secondary (Class X)

2020 – 2021

Jaivins Academy CBSE Senior Secondary School

CERTIFICATIONS

- Career Essentials in Generative AI – Microsoft & LinkedIn Learning, 2024
- Operating Systems Basics – Cisco Networking Academy, 2024
- Python Programming – IIT Madras Digital Skills Academy & GUVI, 2021
